Compressed air technology is the future to all automation. Process automation, pneumatic systems, eco-friendly exhaust-air cleaning systems are all integral to smart factories, which depend on advanced vacuum-air and compressor solutions. Compressed-air and vacuum systems are so vital to smart automation that there can be no energy-efficient, sustainable production without these smart technologies.

After the successful first edition, India ComVac 2022 is here again with its second edition. It is India's most important event for industrial technology, and focuses on digitalisation and sustainability. Smart compressor and vacuum technologies are key to transforming business and industry. They enable digitalised, climate-neutral and sustainable value creation.

Industry plays a vital role towards climate neutrality. It depends on industrial companies to protect the environment; to significantly reduce CO₂ emissions. This can be done by investing in digitalised, energy-efficient and climate-friendly production processes. And only the most modern industrial technologies can generate renewable energies in sufficient quantities. The three-day international show will display how industry is transitioning to climate-neutrality.

Companies who have combined digitalisation, artificial intelligence, automation, and sustainable energy concepts to develop smart solutions in answer to global challenges of climate change, will display their innovative products and solutions at the event.

Exhibitor Benefits

- Have cost-effect access to over 150 top brands
- Exhibit your latest and innovative products and services, future technologies to over 8,000 enthused audience
- Launch new products and services
- With the entire compressor and vacuum community under one roof, it will help to gauge instant market reactions and feedback on latest products and services
- Can engage directly with a large gathering of global industry buyers and investors, and can build strategic business alliances
- Unrivalled networking and business matchmaking opportunity with industry professionals from across the globe
- Can elevate market position and intensify brand visibility instantly

Don't miss the opportunity to showcase your brand, products and services as a leader within the industry.

Key Exhibiting Areas

Compressed air technology

- Accessories and components for compressors and compressed air technology
- Application-related compressors
- Compressed air processing plants
- Compressors for compressed air generation (according to type)
- Energy-efficient compressed air technology, compressed air distribution systems, compressors and control systems
- Gas compressors for industrial gases
- Other compressed air equipment and compressed air systems
- Pneumatic brakes and brake systems
- Pneumatic tools, equipment and accessories
- Systems for compressed air storage and distribution

Services for the field of compressed air and vacuum technology

- Services for the field of vacuum technology
- Services in the field of compressed air technology

Vacuum technology

- Systems and components for/involving vacuum
- Vacuum feed-throughs
- Vacuum fittings, vacuum seals, vacuum valves & accessories
- Vacuum leak detectors
- Vacuum measuring devices
- Vacuum pumps
- Vacuum tanks
- Vacuum technology applications, solutions

Visitors Profile

- Manufacturers, suppliers, distributors from sectors like
- Pharmaceuticals, water supply and waste water power generation
- Energy resources aerospace and automotive parts
- Building and construction
- IT and telecommunications
- Personnel from material testing and inspection
- Mould and die manufacturers and distributors
- Rubber and plastic products manufacturing
- Sheet metal working plants
- Electronics engineers
- Government official dealers
- Trade associations
- Experimental scientists
- Fabrication scientists
- LED researchers and manufacturers
- Laser manufacturers
- Maintenance engineers and manufacturers
- Production engineers
- Projects managers

How We Attract Visitors

With the ultimate aim to maximise your return on investment, we are doing extensive promotions of our shows, which will continue for four months

- We are eager to work collectively with our exhibitors and sponsors and help them reach out to their buyers with the help of our resources, market connections, and social networking
- Our dedicated call centre is putting in hours to directly call the purchase and procurement managers, manufacturing and R&D heads and other relevant experts of business houses
- Regular ads in business dailies—print and digital versions will help in buzzing about the Mega Expos for over three months
- We have tied up with industrial clusters and their respective associations to invite their members
- B2B meetings with Big Buyer, the single point sourcing solution for big business houses
- E-mailer and SMS campaigns to our massive industry database
- More than 1 lakh personal invitations to the industry
- Our media partners—Tradeindia, Tender 247.com, 10 Times, Four Square Media, Alibaba.com and Trade4India.com have already started promoting the shows
- The shows are also being promoted through dedicated websites, social media platforms and PR agency

Exhibit Space Cost

- **Shell Space Rate:**
INR 16,000 / sqm
(Minimum booth: 9 sqm)
- **Raw Space Booth:**
INR 15,000 / sqm
(Minimum 18 sqm)

Sponsorship

- **Platinum Sponsorship:**
INR 25,00,000
- **Gold Sponsorship:**
INR 15,00,000
- **Silver Sponsorship:**
INR 10,00,000
- **Dinner Sponsorship:**
INR 10,00,000
- **Lanyard & Badge:**
INR 5,00,000
- **Bag Partner:**
INR 3,00,000

*GST applicable on above rates
